CHANGED PUBLIC ACCESS IN NULLICA STATE FOREST AT EDEN

17 Aug 2015 - Jacinta Healy

Locals are being reminded to pay attention to the part road closure of Falls Link Road while enjoying Nullica State Forest at Eden. Forestry Corporation of NSW's Partnership Coordinator Brendan Grimson said part of the Falls Link Road in the Nullica State Forest would now be permanently closed for safety reasons.

"We encourage locals to get out and enjoy the region's State forests, but please keep in mind that some sections of the Falls Link Road have been closed for the community's safety," Mr Grimson said.

"The part section of Falls Link Road from the upper picnic area is now closed and will permanently exclude the lower car park.

"Works are scheduled for early September to install a locked gate to facilitate closure to Nethercote Falls in response to safety incidents.

"We put road closures in place for the safety of forest users, so please don't attempt to walk or cycle past or around them.

"There are plenty of forest trails at forests on the south coast of NSW that will remain open for bushwalking, horse riding and bike riding, and we encourage locals to get out and explore these areas."

Visit forestrycorporation.com.au/visit or #visitnswforests on Facebook for more visitor information. For more information about the road closure or works scheduled in Nullica State Forest visit the Forestry Corporation office at Crown Street Batemans Bay or call (02) 4475 1414.
